JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

Acetonitrile
Electrochemical behavior of tin oxide in the presence of lithium ion in acetonitrile (Székely et al.) 69
Adsorption
Adsorption of alkyl benzenesulfonates at the ZrO_2 | solution interface (Ardizzone, Orlandi) 181
The EC_{1irr} reaction with adsorption of the reactants. Surface or homogeneous chemical reaction? (Laviron) 187
Alkyl-benzenesulfonates
Adsorption of alkyl benzenesulfonates at the ZrO_2 | solution interface (Ardizzone, Orlandi) 181
Aqueous electrolyte
Electrochemical reduction of carbon dioxide under high pressure on various electrodes in an aqueous electrolyte (Hara et al.) 141

Biochemical sensors
Scanning laser photoelectrochemical microscopy of immobilized glucose oxidase (Hutton et al.) 203
Bioelectrochemistry
Kinetic models of horseradish peroxidase action on a graphite electrode (Ruzgas et al.) 41

Carbon
Studies of the limiting polarization behavior of gas diffusion electrodes with different platinum distributions and hydrophobic properties (Da Silva, Ticianelli) 101
Carbon dioxide
Electrochemical reduction of carbon dioxide under high pressure on various electrodes in an aqueous electrolyte (Hara et al.) 141
Electrochemical reduction of CO_2 in methanol at $-30°C$ (Mizuno et al.) 199
Chemical etching
Ferricyanide reduction as a probe for the surface chemistry of silicon in aqueous alkaline solutions (Bressers et al.) 159
Chemisorption
Changes of the specific surface energy of gold due to the chemisorption of sulphate (Láng, Heusler) 169
Cobalt oxidation
Oxide electrodes in molten carbonates. Part 2. Electrochemical behaviour of cobalt in molten Li + K and Na + K carbonate eutectics (Tomczyk et al.) 133
Composition effects
Studies of the limiting polarization behavior of gas diffusion electrodes with different platinum distributions and hydrophobic properties (Da Silva, Ticianelli) 101
Computer simulation
Electric field effects on the structure and dynamics at a liquid | liquid interface (Schweighofer, Benjamin) 1
Conversion efficiency
Preparation and characterization of a $PbTiO_3$ + PbO mixed-oxide photoelectrode (Krishna et al.) 93
Copper chromium manganites
Oxygen reduction on copper chromium manganites. Effect of oxide composition on the reaction mechanism in alkaline solution (Ortiz, Gautier) 111
Current flow
Variations in the flow of current to disk electrodes caused by particles (Fransaer et al.) 11
Cyclic voltammetry
Oxygen evolution on PTFE-modified ruthenium oxide electrodes investigated by CV techniques (Shieh, Hwang) 77

Disk electrodes
Variations in the flow of current to disk electrodes caused by particles (Fransaer et al.) 11
Doping
Electrochemical behavior of tin oxide in the presence of lithium ion in acetonitrile (Székely et al.) 69

Electric field effects
Electric field effects on the structure and dynamics at a liquid | liquid interface (Schweighofer, Benjamin) 1
Electrocatalysis
Aspects of the electrochemistry, electropolymerization and electrocatalytic activity of rhodium hydride and related complexes with tertiary phosphines and nitrogen ligands (Bettega et al.) 51
Oxygen reduction on copper chromium manganites. Effect of oxide composition on the reaction mechanism in alkaline solution (Ortiz, Gautier) 111
Electrocatalytic activity
Electrochemical reduction of carbon dioxide under high pressure on various electrodes in an aqueous electrolyte (Hara et al.) 141
Electrocatalytic oxidation
Hydrogen electro-oxidation on platinum catalysts in the presence of trace carbon monoxide (Igarashi et al.) 119
Electron transfer
Kinetic models of horseradish peroxidase action on a graphite electrode (Ruzgas et al.) 41
Electro-oxidation, Adsorption, FTIR spectroscopy, Platinum electrodes
Voltammetric and in-situ FTIR spectroscopic study of the oxidation of methanol on Pt(*hkl*) in alkaline media (Morallón et al.) 149
Electropolymerization
Aspects of the electrochemistry, electropolymerization and electrocatalytic activity of rhodium hydride and related complexes with tertiary phosphines and nitrogen ligands (Bettega et al.) 51
Electroreduction
Electrochemical reduction of carbon dioxide under high pressure on various electrodes in an aqueous electrolyte (Hara et al.) 141
Electrochemical reduction of CO_2 in methanol at $-30°C$ (Mizuno et al.) 199
Enzyme-modified electrodes
Kinetic models of horseradish peroxidase action on a graphite electrode (Ruzgas et al.) 41

Ferricyanide reduction
Ferricyanide reduction as a probe for the surface chemistry of silicon in aqueous alkaline solutions (Bressers et al.) 159
Fluoride tin oxide
Electrochemical behavior of tin oxide in the presence of lithium ion in acetonitrile (Székely et al.) 69
Fuel cells
Oxide electrodes in molten carbonates. Part 1. Electrochemical behaviour of nickel in molten Li + K and Na + K carbonate eutectics (Tomczyk et al.) 125

Gas diffusion electrodes
Studies of the limiting polarization behavior of gas diffusion electrodes with different platinum distributions and hydrophobic properties (Da Silva, Ticianelli) 101
Gas-evolving electrodes
Oxygen evolution on PTFE-modified ruthenium oxide electrodes investigated by CV techniques (Shieh, Hwang) 77
Glucose oxidase
Scanning laser photoelectrochemical microscopy of immobilized glucose oxidase (Hutton et al.) 203
Gold electrodes
Changes of the specific surface energy of gold due to the chemisorption of sulphate (Láng, Heusler) 169
Graphite electrode
Kinetic models of horseradish peroxidase action on a graphite electrode (Ruzgas et al.) 41

Heterogeneous
The EC_{1irr} reaction with adsorption of the reactants. Surface or homogeneous chemical reaction? (Laviron) 187
High temperature
Internal reference systems for electrochemical studies in molten sodium fluoride at 1025°C (Adhoum et al.) 63
Horseradish peroxidase
Kinetic models of horseradish peroxidase action on a graphite electrode (Ruzgas et al.) 41
Hydrogenation
Aspects of the electrochemistry, electropolymerization and electrocatalytic activity of rhodium hydride and related complexes with tertiary phosphines and nitrogen ligands (Bettega et al.) 51

Interface structure
Electric field effects on the structure and dynamics at a liquid|liquid interface (Schweighofer, Benjamin) 1
Interfacial chemistry
Adsorption of alkyl benzenesulfonates at the ZrO_2|solution interface (Ardizzone, Orlandi) 181

Kinetic models
Kinetic models of horseradish peroxidase action on a graphite electrode (Ruzgas et al.) 41

Labile metals
Basis of the voltammetric analysis of labile metal–homofunctional macromolecule complexation (Galceran et al.) 29
Liquid|liquid interface
Electric field effects on the structure and dynamics at a liquid|liquid interface (Schweighofer, Benjamin) 1
Lithium electrolyte
Electrochemical behavior of tin oxide in the presence of lithium ion in acetonitrile (Székely et al.) 69

Macromolecule complexation
Basis of the voltammetric analysis of labile metal–homofunctional macromolecule complexation (Galceran et al.) 29
Mathematical model
Variations in the flow of current to disk electrodes caused by particles (Fransaer et al.) 11
Mathematical models
Basis of the voltammetric analysis of labile metal–homofunctional macromolecule complexation (Galceran et al.) 29
Methanol
Electrochemical reduction of CO_2 in methanol at −30°C (Mizuno et al.) 199
Mixed-oxides semiconductor
Preparation and characterization of a $PbTiO_3$ + PbO mixed-oxide photoelectrode (Krishna et al.) 93
Molecular dynamics
Electric field effects on the structure and dynamics at a liquid|liquid interface (Schweighofer, Benjamin) 1
Molten carbonates
Oxide electrodes in molten carbonates. Part 1. Electrochemical behaviour of nickel in molten Li + K and Na + K carbonate eutectics (Tomczyk et al.) 125
Oxide electrodes in molten carbonates. Part 2. Electrochemical behaviour of cobalt in molten Li + K and Na + K carbonate eutectics (Tomczyk et al.) 133

Nickel oxidation
Oxide electrodes in molten carbonates. Part 1. Electrochemical behaviour of nickel in molten Li + K and Na + K carbonate eutectics (Tomczyk et al.) 125

Oxo manganese
Electrodes modified by polymeric films containing oxo manganese clusters (Collomb-Dunand-Sauthier, Deronzier) 211
Oxygen reduction
Oxygen reduction on copper chromium manganites. Effect of oxide composition on the reaction mechanism in alkaline solution (Ortiz, Gautier) 111
Oxide electrodes in molten carbonates. Part 1. Electrochemical behaviour of nickel in molten Li + K and Na + K carbonate eutectics (Tomczyk et al.) 125
Oxide electrodes in molten carbonates. Part 2. Electrochemical behaviour of cobalt in molten Li + K and Na + K carbonate eutectics (Tomczyk et al.) 133
Oxygen reduction reactions
Studies of the limiting polarization behavior of gas diffusion electrodes with different platinum distributions and hydrophobic properties (Da Silva, Ticianelli) 101

Passivation
Electrochemical behavior of tin oxide in the presence of lithium ion in acetonitrile (Székely et al.) 69
Peroxide
Oxygen reduction on copper chromium manganites. Effect of oxide composition on the reaction mechanism in alkaline solution (Ortiz, Gautier) 111
Photoelectrochemical microscopy
Scanning laser photoelectrochemical microscopy of immobilized glucose oxidase (Hutton et al.) 203
Platinum
Studies of the limiting polarization behavior of gas diffusion electrodes with different platinum distributions and hydrophobic properties (Da Silva, Ticianelli) 101
Platinum catalysts
Hydrogen electro-oxidation on platinum catalysts in the presence of trace carbon monoxide (Igarashi et al.) 119

Polymeric films
Electrodes modified by polymeric films containing oxo manganese clusters (Collomb-Dunand-Sauthier, Deronzier) 211

Rate constants
The EC_{1irr} reaction with adsorption of the reactants. Surface or homogeneous chemical reaction? (Laviron) 187
Redox couples
Internal reference systems for electrochemical studies in molten sodium fluoride at 1025°C (Adhoum et al.) 63
Rhodium hydride complexes
Aspects of the electrochemistry, electropolymerization and electrocatalytic activity of rhodium hydride and related complexes with tertiary phosphines and nitrogen ligands (Bettega et al.) 51

Second-phase particles
Variations in the flow of current to disk electrodes caused by particles (Fransaer et al.) 11
Silicon
Ferricyanide reduction as a probe for the surface chemistry of silicon in aqueous alkaline solutions (Bressers et al.) 159
SnO_2
Electrochemical behavior of tin oxide in the presence of lithium ion in acetonitrile (Székely et al.) 69
Solar cells
Preparation and characterization of a $PbTiO_3 + PbO$ mixed-oxide photoelectrode (Krishna et al.) 93
Speciation
Basis of the voltammetric analysis of labile metal–homofunctional macromolecule complexation (Galceran et al.) 29
Spinel
Oxygen reduction on copper chromium manganites. Effect of oxide composition on the reaction mechanism in alkaline solution (Ortiz, Gautier) 111
Structure effects
Studies of the limiting polarization behavior of gas diffusion electrodes with different platinum distributions and hydrophobic properties (Da Silva, Ticianelli) 101
Surface analysis
Electrochemical behavior of tin oxide in the presence of lithium ion in acetonitrile (Székely et al.) 69
Surface chemistry
Ferricyanide reduction as a probe for the surface chemistry of silicon in aqueous alkaline solutions (Bressers et al.) 159
Surface energy
Changes of the specific surface energy of gold due to the chemisorption of sulphate (Láng, Heusler) 169
Surfactants
Adsorption of alkyl benzenesulfonates at the ZrO_2 | solution interface (Ardizzone, Orlandi) 181

Transition metal hydrides
Aspects of the electrochemistry, electropolymerization and electrocatalytic activity of rhodium hydride and related complexes with tertiary phosphines and nitrogen ligands (Bettega et al.) 51
Transparent electrode
Electrochemical behavior of tin oxide in the presence of lithium ion in acetonitrile (Székely et al.) 69

Voltammetry
Voltammetric behavior of the 18-molybdopyrophosphate anion, $[(P_2O_7)Mo_{18}O_{54}]^{4-}$ (Himeno, Saito) 207

ZrO_2
Adsorption of alkyl benzenesulfonates at the ZrO_2 | solution interface (Ardizzone, Orlandi) 181
